## Workshop 1

**What to do if something happens?**

**Accident management...acting well in accidents and in crisis situations with horses during an equestrian event**

Nobody wants an accident. Nevertheless - accidents happen in connection with our sports partners, the horses.

It can hit us all... being involved in an accident with a horse, during an equestrian competition.

Since every crisis situation requires a cool head, it helps to deal with the situation in advance.

Equestrian competition experts, national as well as international, event organisers, athletes and horse owners...all of us should know what to do when an accident happens!
